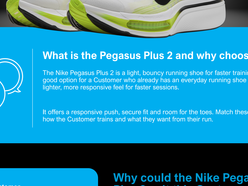
Meet the Nike Pegasus Plus 2



What is the Pegasus Plus 2 and why choose it?

The Nike Pegasus Plus 2 is a light, bouncy running shoe for faster training. It is a good option for a Customer who already has an everyday running shoe and wants a lighter, more responsive feel for faster sessions.

It offers a responsive push, secure fit and room for the toes. Match these benefits to how the Customer trains and what they want from their run.

Customer

"I already have an everyday running shoe. I want something lighter and bouncier for faster training sessions."

Why could the Nike Pegasus Plus 2 suit this Customer?

They want something lighter and bouncier for faster sessions the same needs this light, bouncy daily training shoe is made to meet.

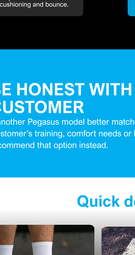
Key selling point:

Understand **how the Customer trains** before recommending the shoe

SIMPLE PRODUCT POSITION
Pegasus Plus 2 = light, bouncy and made for faster training.

Focus on the benefits that matter

You do not need to explain every technical detail. Focus on the benefits that match what the Customer needs.



1. ZoomX foam
2. Curved Air Zoom unit
3. Secure fit with more toe room
4. Waffle outsole

Benefit
Helps the shoe feel light and bouncy.

Say it like this
"The ZoomX foam gives you a light and bouncy feel when you run."

SALES TIP
Ask how the Customer trains. Then explain only one or two benefits that match the Customer's needs.

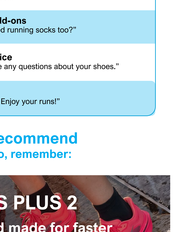
Choose the right Pegasus

Use the Customer's training needs to guide the recommendation.

Simple way to position it	Best for	Model
A reliable everyday running shoe with a balanced feel.	Everyday runs and general daily training.	Pegasus 42
A light and bouncy shoe for runners who want a faster feel.	Faster-paced runs and short bursts of faster running.	Pegasus Plus 2
The premium Pegasus option with the most cushioning and bounce.	Runners who want the most cushioning in the Pegasus range.	Pegasus Premium

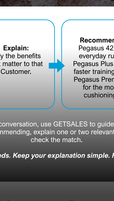
BE HONEST WITH THE CUSTOMER

If another Pegasus model better matches the Customer's training, comfort needs or budget, recommend that option instead.

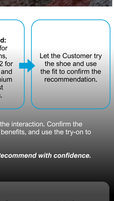


Quick decision guide

Pegasus 42



Pegasus Plus 2



Pegasus Premium

Put it into practice with GETSALES

GETSALES for Totalsports guides the conversation from greeting the Customer to saying thank you. Follow the eight steps below, using your own words and keeping the Customer's needs at the centre.

Customer

"I run three or four times a week. I already have a shoe for easy runs, but I want something lighter for faster-paced sessions and short bursts of faster running."

Step	Totalsports application
G	**Greet the Customer** "Welcome to Totalsports! How can I help?"
E	**Establish the need** "What runs will you use them for, and what feel, fit and budget matter to you?"
T	**Test understanding** "So you want a lighter shoe for faster sessions—is that right?"
S	**Sell using Features, Advantages and Benefits** "ZoomX foam gives a light, bouncy feel; the curved Air Zoom unit adds a responsive push for your faster sessions. Let's check the fit."
A	**Address objections** If fit is a concern: "Where does it feel uncomfortable? Let's check the fit or try another option."
L	**Lead to relevant add-ons** If relevant: "Do you need running socks too?"
E	**Ensure future service** "Come back if you have any questions about your shoes."
S	**Say thank you** "Thank you for visiting. Enjoy your runs!"

Ready to recommend

Before you go, remember:

Ask: the Customer how they run and what they want from the shoe.

Explain: only the benefits that matter to that Customer.

Recommend: Pegasus 42 for everyday runs, Pegasus Plus 2 for faster training and Pegasus Premium for the most cushioning.

Let the Customer try the shoe and use the fit to confirm the recommendation.

On your next running-shoe conversation, use GETSALES to guide the interaction. Confirm the Customer's needs before recommending, explain one or two relevant benefits, and use the try-on to check the match.

Start with the Customer's needs. Keep your explanation simple. Recommend with confidence.

Check your recommendation
Choose the best answer for each Customer situation. Think about the Customer's needs before choosing the shoe or response.

Question 1: Choose the best Pegasus model

A Customer runs five times a week. Most runs are easy, but the Customer already owns an everyday trainer and wants a lighter shoe for faster training sessions. The Customer prefers a light, bouncy feel. What is the best starting recommendation?

Feedback: The Customer already has an everyday trainer and wants a lighter shoe for faster sessions. That makes the Pegasus Plus 2 the strongest starting point.

A. Elite Waffle Maker
B. Frost Ice and Slushie Maker
C. Bistro Contact Grill
D. Omnicooker

Question 1 of 4

Everyday and balanced

Light, bouncy and faster training

Most cushioning and a premium feel
